1. The appended table lists planned production for 1954 and actual production during the first three quarters of 1954 of VEB Teerverarbeitungswerk Webau, one of the enterprises under the Main Administration for Liquid Fuels in Production Area Chemistry of the East German Ministry for Heavy Industry. All amounts are in metric tons. The production listed is Warenproduktion, i.e. production for sale¹.
2. Due to the fact that the enterprise did not receive sufficient allotments of light oil as provided for in the Plan, the planned 1954 production had to be revised during the third quarter of 1954. For purposes of comparison, both plans are listed in the following table².
